

This section is Dedicated to: **“ALL CHILDREN”**. You are loved!

This series is dedicated to Children of every race, creed, and religion with the **“spirit of hope”** that all will embrace the fellowship and strengths of each other as **America’s Stars**. You are our legacy, our future and our shining beacon of hope. Knowing, understanding and respecting your wonderful heritage helps you stay balanced as a human being. I honor each of you right where you are. In all the world there is no one just like you. Know what? That makes you special! Here are some Hawaiian words of wisdom for you to know and practice as you grow up and begin the process called "learning to learn!"

Ke kupono means **integrity**

Ka ha’a ha’a means **humility**

Ke aloha means **sharing joyous breath of life**

Ka hanohano means **dignity**

Ka ko’omana means **spirituality**

Ke ala ka’i means **leadership**

And the 4<sup>th</sup> **“R”** is **responsibility**

These are **values all human beings must learn** to live with, work towards and share to become the best that one can be. Everything begins and ends with you. Seeing deeper this means, “everything starts with the **“desire”** to become. Know what the secret of the most high is? **There is power in truth!**

Practice and live the following two powerful **“speak out loud”** words to live by sentences.

## Ready?

1. **“I can be what I will to be!”**
2. **“I’m, whole, perfect, strong, powerful, loving, Living in harmony, happy and not afraid to experience life!”**

Everything children, is about **perception** (how you see things) and **attitude** (yours). May the light of your hope spread throughout the world! If you think you can, guess what? **You can!**

**One final and very important rule children: Begin everything with the intent to finish whatever it is that you start or don't start. Know why? If you don't finish you build a life of unfinished throughout your whole lives. Then it is easier to quit because you feel like you failed lots of times. Want to test these words? Look around your room or in your house. How many piles of unfinished projects and I'll do it later do you see? Exactly! Know what? I'll tell you a secret. People fail after they quit. So never, never, never give up because it is always too soon to quit. Finishing what you start will help you move through life confident, and filled with HOPE and love for yourself, all humans and even your pets. This is your life children, and Stars of greatness live within each of you.**
